

COMMUNITY LIVING CENTRAL YORK IS LOOKING FOR THE HELPERS. WILL YOU #RAISEYOURHAND?

Newmarket, Ont – April 24, 2020. Community Living Central York launched the social media initiative #RaiseYourHand aimed at raising awareness and donations to improve the quality of life for their staff and residents during the Covid-19 pandemic. They are in immediate need of medical supplies such as: isolation gowns, isolation masks, medical face shields, gloves, hand sanitizer, and Lysol wipes as well as arts and crafts supplies, games, and puzzles.

Colleen Zakoor, Community Living Central York's Executive Director states "This is an incredibly challenging time for everyone, and we are grateful to our entire CLCY family for managing the new normal so brilliantly. The new constraints and hurdles we are navigating are proving to be an opportunity to think beyond the obvious and find new ways to support our staff and residents."

The campaign was designed as a rallying cry to followers and supporters to help get the word out about urgently needed items.

"We are looking for the helpers." says Ms. Zakoor.
